Taberno

€100,000

Large former farmhouse with several outbuildings on over 25000 m2 of land planted with olive and almond trees.

This farm will have to be completely renovated. This is a real challenge for someone who doesn't shy away from anything.

However, not much can be said about the current layout. Upon entering through one of the doors, you enter various very large spaces, which can all be divided into bedrooms, work areas, living room, kitchen, etc. The same applies to the first floor, with another four huge rooms with the authentic beamed ceiling and a roof that was still in a reasonable condition.

The whole is surrounded by its own fruit-giving orchards with olive and almond. So there is always income during the entire renovation.

The location is a few meters from the main road near El Madroño and therefore very easily accessible. About 20 minutes from Albox with many shops, etc. and especially professional construction companies.

If you start itching with such a story, don't hesitate to contact us and we will arrange a viewing.
